# Individualized Conceptual Framework Time Requirements

## ***Group 1:***

- ***50 minute periods (weekly):***
- ***Vocabulary/Morphology: 35-45 minutes***
- ***Comprehension/Text Reading: 170-180 minutes***
- ***Attitude/Motivation: 15-25 minutes***

## ***Group 2:***

- ***50 minute periods (weekly)***
- ***Word Study/Text Reading: 100-110 minutes***
- ***Vocabulary/Morphology: 35-45 minutes***
- ***Comprehension/Text Reading: 70-80 minutes***
- ***Attitude/Motivation: 15-25 minutes***

## Tier III Intervention: Individualized

- Individualized protocol: instructional procedures and practices implemented with adaptations and accommodations to respond to individual student needs

### **Consider:**

- Cycling Strategies**
- Level of support (I do, We do, You do)**
- Time components**
- Responsiveness to Instruction**
- Data from CBMs (ever other week)**
- PM data**

# Individualized Conceptual Framework

## Persistence and Relentlessness

- *Precision teaching with dynamic assessment and instruction*
- *"Teaching on purpose"*
- *Be reflective and responsive*
- *Ask yourself: "What does this data mean about what/how I have been teaching this child?"*

# Lesson Components and Materials

- *Scope and sequence*
- *Materials- research based reading components/strategies, expository and narrative text, manipulatives, resource books*

# Individualized Conceptual Framework: Word Study

- *Instructional model:*
  1. *Teach Word Study technique*
  2. *Apply in sentence*
  3. *Apply in paragraph*
  
- *Incorporate fluency when necessary*

# Individualized Conceptual Framework: Word Study

## Word Study / Text Reading

Date: \_\_\_\_\_ Period: \_\_\_\_\_ Time allotted: \_\_\_\_\_

<b>Teach the Concept</b>	<b>Time: _____</b>	<b><i>notes, materials</i></b>
<b>Apply Concept to Sentences</b>	<b>Time: _____</b>	<b><i>notes, materials</i></b>
<b>Apply Concept to Text</b>	<b>Time: _____</b>	<b><i>notes, materials</i></b>

# Individualized Conceptual Framework: Fluency

- *Teachers use a variety of methods to improve fluency:*
- *Sound and phrase fluency*
- *Connected text fluency: repeated reading and wide reading*

# Individualized Conceptual Framework: Morphology

- *The bridge between word study and vocabulary*
- *Breaking words into their meaningful parts*
- *Learning and analyzing word parts*
- *Multiple meaning words*

## Individualized Conceptual Framework: Vocabulary

- *Should be all about word consciousness*
- *Keep clunk list during text reading AND clunk fix up strategies*
- *Examples and non-examples*
- *Don't spend a lot time introducing words- teach or tell them necessary words (Tier 3 words)*

## Individualized Conceptual Framework: Comprehension

- *Don't talk about strategies (limited "teacher talk"):*
- *"Get on the slopes!"*
- *Activate Prior Knowledge (Teachers should incorporate automatically- don't spend a lot of time on it)*
- *Comprehension should be linked to text reading*
- *3 main strategies: Question Generation, Get the Gist/Main Idea, Summarization*

# Individualized Conceptual Framework: Question Generation

- *Level 1: "Right There"*
- *Level 2: "Putting it Together"*
- *Level 3: "Making Connections"*

# Individualized Conceptual Framework: Get the Gist and Summarization

- *What is the most important person, place, or thing in this section?*
- *What is the most important idea about the person, place, or thing?*
- *Write the information in a sentence that contains 10 or fewer words*

# Individualized Conceptual Framework: Comprehension

## *Recommended Sequence:*

- *-Question Generation: What, who, when, where, (5 weeks)*
- *-Get the Gist/Main Idea and weave in question generation (3 weeks)*
- *-Question Generation: how or why and compare/contrast (5 weeks)*
- *-Get the Gist/Main Idea with Question Generation to build to summarization (5 weeks)*

# Individualized Conceptual Framework: Attitude/Motivation

- *Support student autonomy!*
- *Monthly conference:*
  - Involve students in academic goal setting*
  - Discuss steps to achieve goals*
  - Allow students to chart their own progress*
- *Positive phone calls home*

## Standardized Intervention

Specified use of time (3 phases of intervention)

High control of curriculum and materials

Modifications made at the group level

Motivation through success only

## Individualized Intervention

Flexibility in use of time

Low control of curriculum and materials

Modifications made in response to individual student need

Motivation through text selection, conferences, goal setting, positive calls home

-systematic and explicit

-fast paced instruction

-ongoing progress monitoring

-instruction in same components of reading

-focus on HOW to learn content

# Individualized Conceptual Framework: Student Progress and Lesson Modification

- Use scope and sequence of research based strategies to guide instruction
- Lesson modification and decisions to progress are based on data and teacher judgment.
- Teachers decide mastery and have to justify decisions (based on work samples, CBM results and CBM informational guide, and observations)

# Lesson Plans and Decision Making: Sample Lesson Plan

# Lesson Plans and Decision Making: CBM

## CBM EXAMPLE GROUP 1

1. Read pgs. 56-57 of *The Watsons go to Birmingham*. As you read, record your clunks below:

---

---

---

2. Choose one of your clunks above and tell which fix-up strategy you used to figure out the meaning of the clunk
3. Write a get the Gist Statement for page 56-57
4. Continue to think about what you just read. Choose 3 of the following question stems and generate questions about pg. 56-57.

What \_\_\_\_\_ ?  
Who \_\_\_\_\_ ?  
When \_\_\_\_\_ ?  
Where \_\_\_\_\_ ?

5. Break down each word into its morphemes. The first one is done for you:

Governorship    govern + or + ship  
Fortunately  
Massively  
Endurance  
Pleasantly  
Helpfully
